

Valulla

The Valulla is a good value great boat on the river. She has a huge open deck which makes her perfect for summer parties. She is a great venue and very flexible for changes you may wish to make.

Licenced capacity is based on both her enclosed, lower, deck and open, upper deck. This totals 170. However my recommendations, based on the inclement British Weather, would be around 110-120.

The Valulla is also one of the fastest boats, of this size, in London. This means that she serves as the perfect transfer option as she is relatively unaffected by the extreme tides that the Thames experiences, and has considerable effect on their journey times.

The outside space offers Clay Shooting options in Central London. The average time of a Clay Shoot, including cruising to the shooting area, is about 5½ hours offering time pre shoot for meetings and presentations. Entertainment and food work well at the end of the shoot and on the return journey into Central London.

She is a popular boat and represents excellent value for money. Whilst she does not have an on board galley she works well for BBQ's and hot and cold buffets.

Weekday hire prices start at just over £1000 with weekend hire prices currently £1200

Champagne, food and drinks to order. Call Ann now on 0207 740 0411 for more details
